In the distance of two or three miles there are inexhaustible beds of Iron ore of the first quality, and the country being very level presents no obstruction to the building of a road in any direction with very little expense. The ore lies in beds, near the top of the ground, and has been judged to be of the richness of sixty per cent. The subscriber will give great encouragement to any person or persons who will undertake and carry on the above business, and will take an interest in the works, or sell the situation. For sore eyes shut the eye and put the plaster directly on the eye and wear it (removing it once in twelve hours and washing off the matter on the eye with castile soap,) till the inflamation is entirely out, say from three to ten days. We also applied in one of the worst cases of fellon, which afforded relief in a few hours so that the individual had a good night's rest.
